Hawking II is a classic among falconry books, one you don't want to live without. Falconry and Hawking: The Essential Handbook - Including Equipment, The Falconers Apprentice is an interesting insight into falconry through the eyes of a real falconer.

Falconry developed in Central Asia and for centuries, Kazakh men hunted from the sky. Now, with the rise of conservation, falconers aspire to provide a critical gap in the region by providing rehabilitative services to injured and sick birds.

On Monday 15 September, the School was treated to a wonderful falconry display staged on Guldeford Green. They watched as an eagle owl flew low (very low). Both licensed falconers and active conservationists, they aspired to provide a critical gap in the region by providing rehabilitative services to injured and sick birds.
